Aesthetic Direction

Photography Guideline

Photography Guidelines

Soft, natural lighting, avoid overly saturated colours or heavy retouching.
Muted pastel colour grading with cool undertones, keep film grain and natural texture.

Composition

recommended: detailed shot from behind process, wider environmental shots,
Off-centre compositions and negative space to keep a subtle sense of distance.

Subject Matter

Individual artist portraits. Artwork details and textures. Installation views and exhibition spaces. Behind-the-scenes moments.

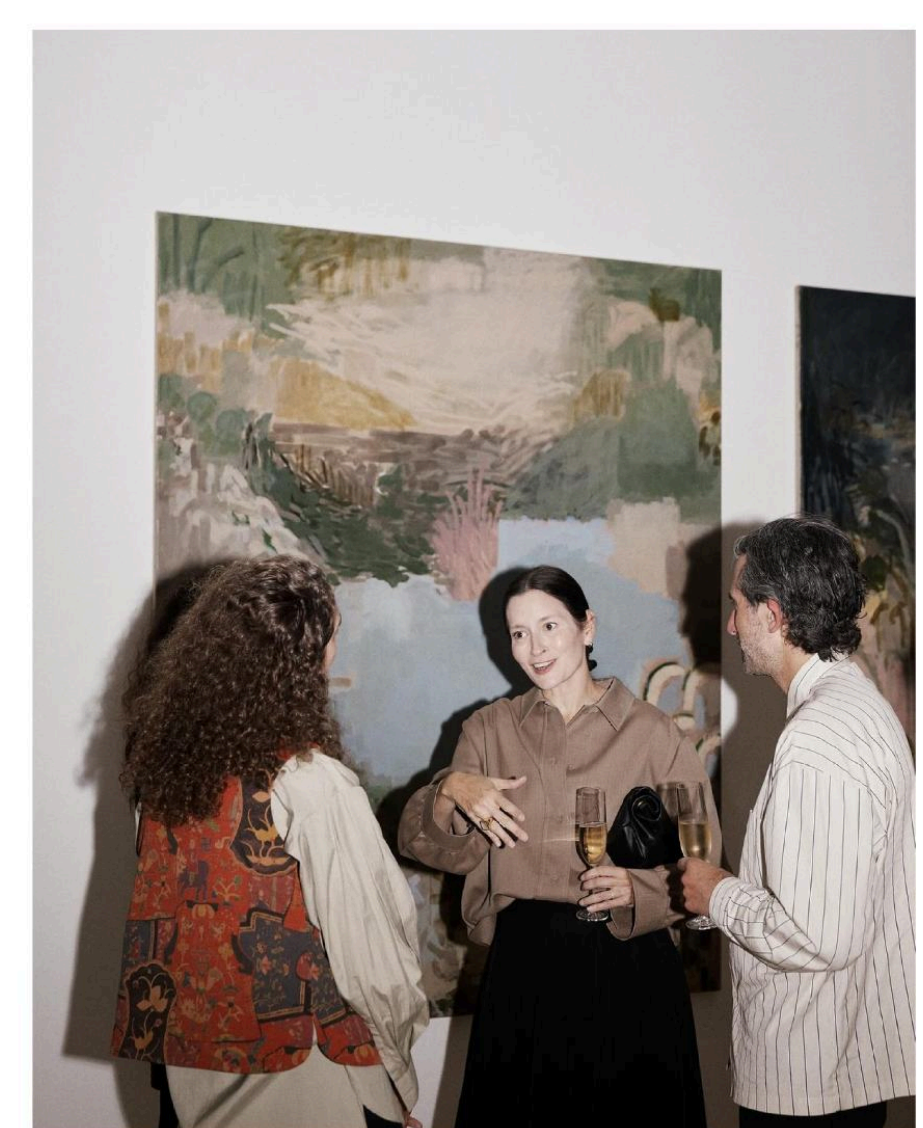

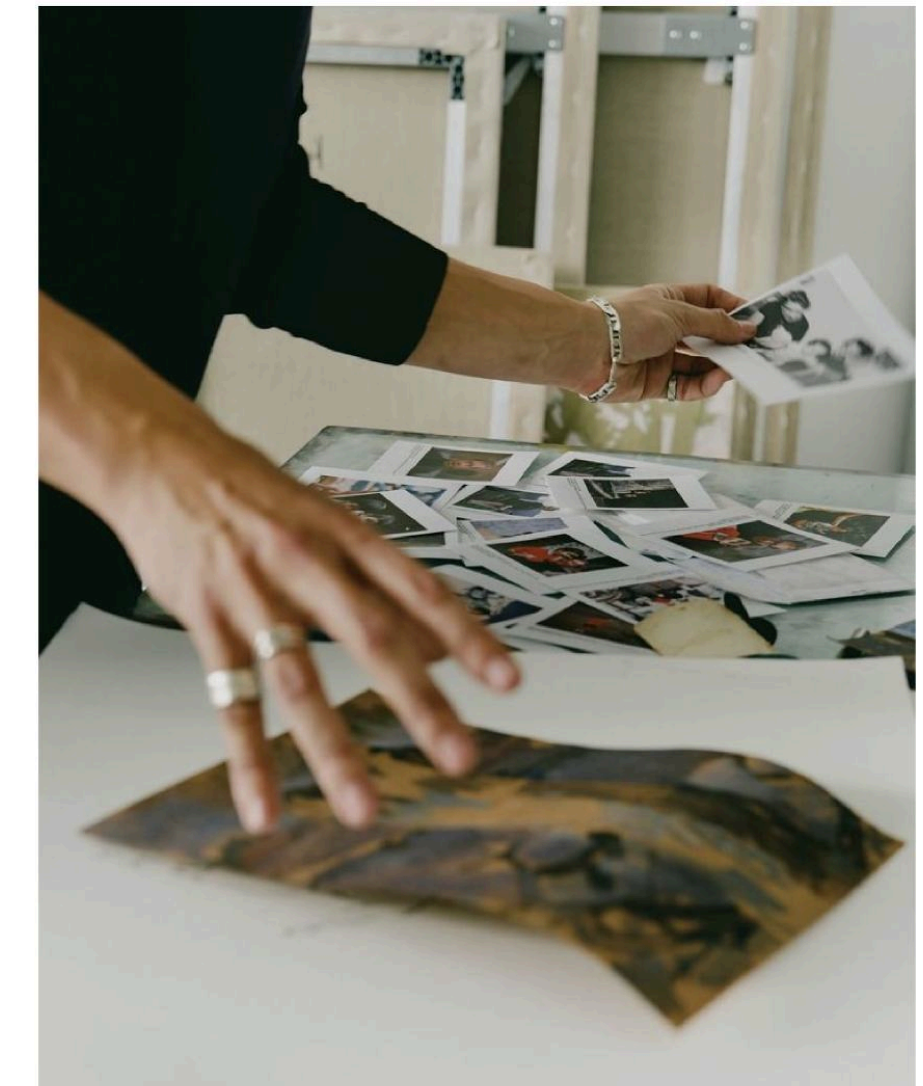

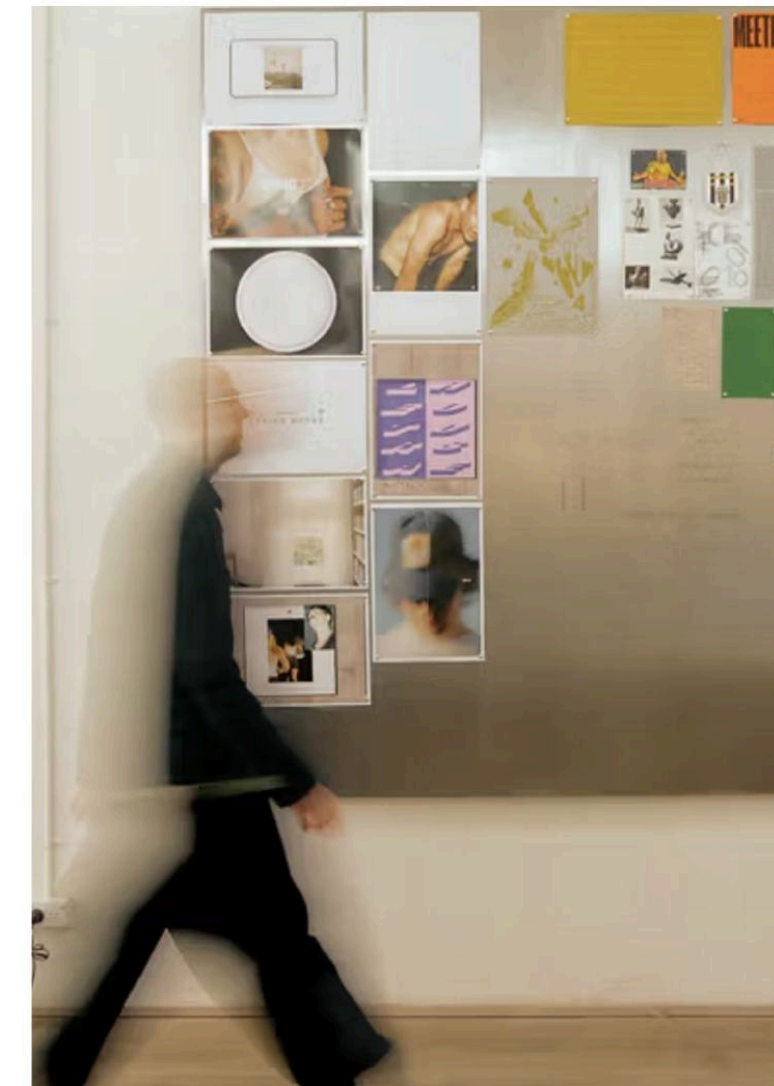

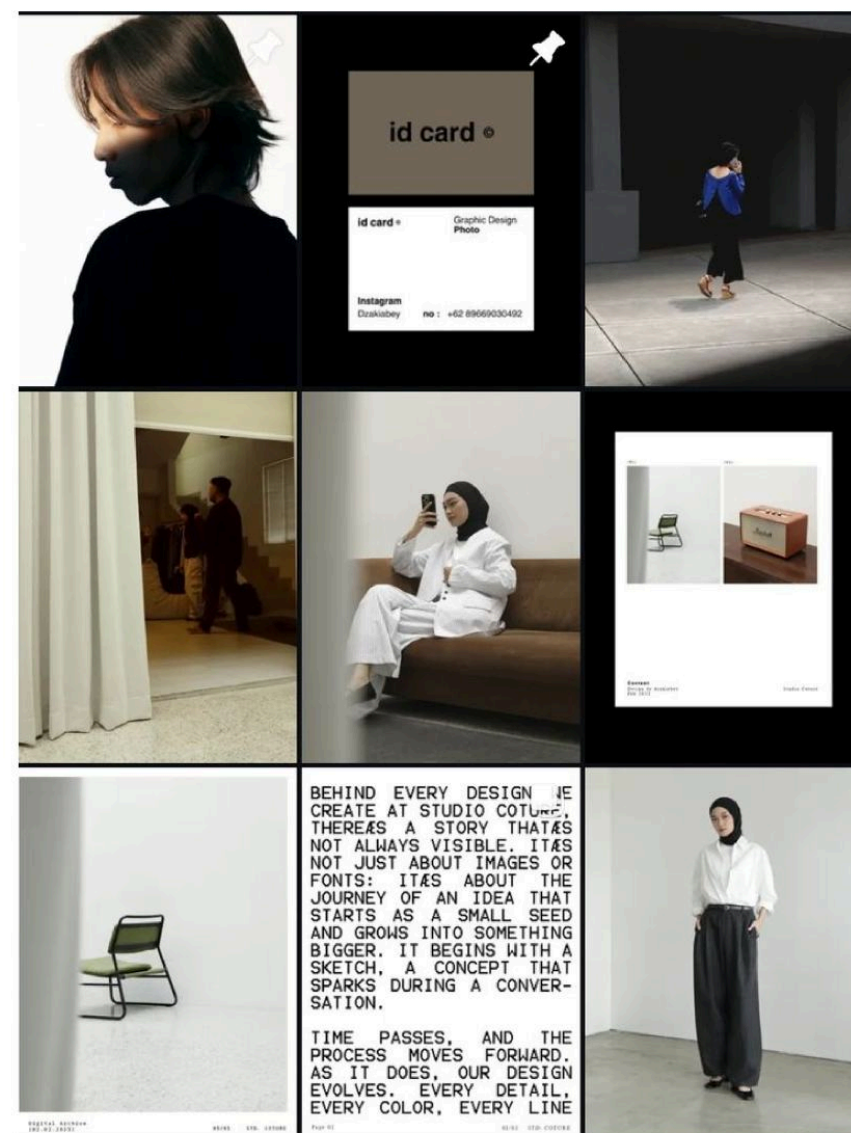

Editing:

Consistent colour temperature across all posts.

Maintain soft contrast and gentle highlights.

Avoid excessive filters, or harsh sharpening.

Keep backgrounds clean and visually calm.
